

ROBIN WOOD

CONSTRUCTION & LANDSCAPES

BUILDING: NEW CONSTRUCTION & REMODEL
LANDSCAPE: DESIGN • INSTALLATION • HARDSCAPE

Robin Guilfoyle
License # 522067

Robin's team is first-rate, and he and his team consistently went the extra mile to assure the highest quality work with a superb level of customer service. To top it off, Robin is a true gentleman, of the highest integrity, with a great work ethic, sense of service responsibility and possesses true pride in his work. I enthusiastically recommend Robin and his team, without any qualifications.

—John Fisher

BROAD SPECTRUM OF CONSTRUCTION EXPERIENCE

We employed Robinwood Construction to build a garage/art studio and a pool/guest house on our property. The re-landscaping was done concurrently with the construction. We would recommend Robin Guilfoyle for any project. Robin has a first-rate crew and his foremen met our expectations for everything. He also has access to the best sub-contractors in the area. Robin is very sensitive to the needs of his clients and deals with any problems that may arise in a timely fashion. He was also able to fill in the voids in areas that our architects sometimes neglected, thus saving us time and money.

—Anne and Albert S.
Baldocchi

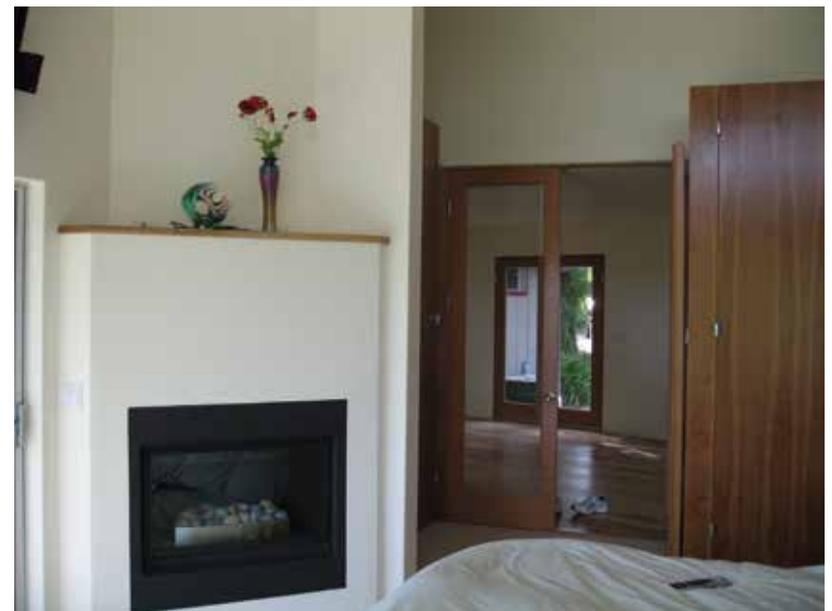

NEW CONSTRUCTION AND REMODELING

Robin is always my first recommendation to my clients for contractor. He has diverse experience, excellent communication skills, a well developed design sensibility, and a strong work ethic. He is committed to the highest quality of workmanship of any contractor that I know. His expertise includes general building construction, high-end landscaping, fine interior finish work, and most related disciplines including plumbing and electrical systems. His ability to coordinate multiple trades and their work flow is highly developed. It is his overall view and range of understanding from large scale exterior spaces down to small scale interior details that I find most valuable.

—Richard Burton
Architect

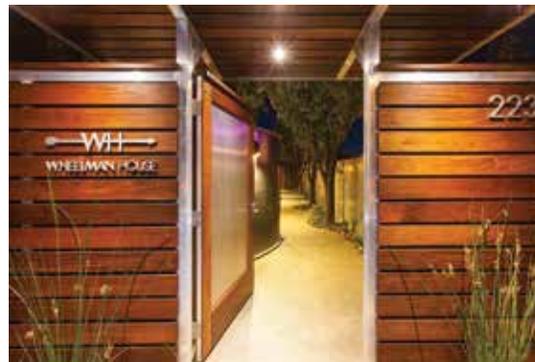

EXPERIENCED PARTICIPATION IN THE AESTHETIC DESIGN PROCESS

We resided on the property during the construction and were amazed at the cleanliness of the site on a daily basis. We feel we also benefited from Robin's connections at the County offices and he was able to gain their attention when needed. We highly recommend this construction company and will use them again ourselves for a future remodel on our residence.

UNIQUE COMMERCIAL PROJECTS

Robin is the most ethical, high quality contractor that I have every worked with and has such a high level of integrity that I trust him like a family member. Robin combines this skill with the unique ability to listen extremely well, especially to women, and make important recommendations and changes without missing a beat.

—Phil Hurst

WORKING WITH INNOVATIVE ARCHITECTURAL DESIGNS

Robin's crew was skillful and reliable and did the great majority of the work. On the few occasions when a subcontractor was needed, Robin always seemed to know just the right person, and that right person promptly did a good job of whatever Robin had requested. We are extremely pleased with the job that Robin and Robinwood did for us, and we hope to be able to work together with them again.

—Raymond P. Haas

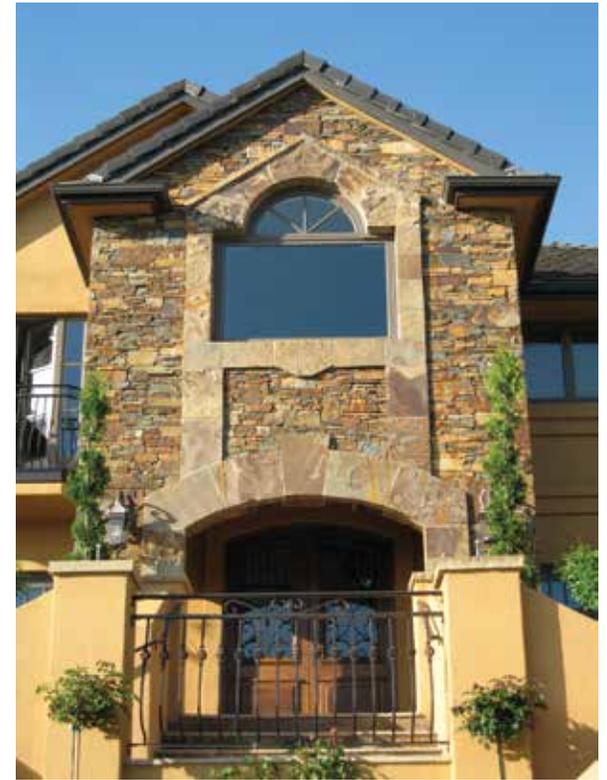

INTRICATE DETAILING IS A PERSONAL PASSION

Having extensively remodeled two homes in the past, I can say from personal experience that Robin and his employees are extremely capable, focused, efficient professionals who are enjoyable to work with. They were a pleasure to have around on a daily basis and very accommodating to all of our needs. It is unusual to find a general contractor who has such a high level of attention to the aesthetic details of a project and even more unusual when his employees share this high standard of quality and attention to eye appeal.

—Alison Reynolds

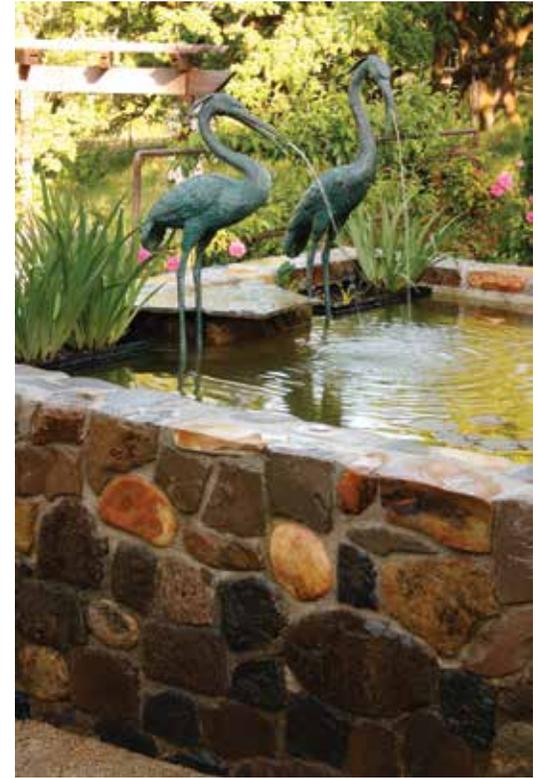

QUALITY CUSTOM STONE WORK

As a landscape designer working in Sonoma, Napa and Marin counties for over 25 years, I have found Robin to be the ideal member of a successful client—designer/architect—contractor team. He brings a creative intelligence to the process of landscape installation and proves both perceptive and adaptable in problem-solving when changes arise during the course of construction.

—Michael Bates
Landscape Architect

CONSIDERATION FOR LANDSCAPING THROUGHOUT THE CONSTRUCTION PROCESS

I recommend Robin Guilfoyle without reservation. He pursues his work with a high degree of professionalism, thoughtfulness, and good humor. All my projects with him have benefitted greatly from his involvement and I know that you will find him invaluable too.
